

Unit4 Prevero

A single performance management platform for consolidation, reporting, analytics, dashboards, integrated business planning, and financial budgeting

Understand the Past

Effortlessly ensure accuracy and compliance through efficient consolidation and statutory reporting

Manage the Present

Quickly produce and update management reporting with accurate, real-time data for clearer business insights

Drive the Future

Increase strategic impact by delivering up to date forecasts and aligning strategy, business plans and financial budgets

Transform an annual burden into a year-round success driver with 24/7 data accuracy and compliance

With statutory reporting requirements changing constantly, Prevero enables you to effectively ensure compliance, allowing you to make decisions with confidence.

Whether analysing cash flow, consolidating accounts from multiple companies, or producing financial reports, the key enabler to better compliance and efficiency is integrating data, so that it's accurate, fresh, and available to everyone who needs it

Prevero enables business leaders to align strategy, finance and operations by making smart decisions in every part of their business. Strong CPM and BI offerings complement Unit4's self-driving business solutions for services organizations, enabling customers to model service delivery around insightful strategic and operational data. Key capabilities of the Prevero suite include:

- Predictive analytics and business insights
- Modelling and simulations
- Ubiquitous access to information via in-memory technology
- Corporate-wide collaboration and planning

Drive performance and add strategic value

The ability to plan strategically will separate leading organizations from the rest of the field. It's time to embrace solutions that help you not only to see several steps ahead, but to create that future as well – by aligning strategy, business plans and financial budgets.

Engage stakeholders with advanced visual analysis of data sets to provide predictive insights based on transparent and credible data, for more informed decision-making. Quickly test new scenarios with a specialised tool that provides an integrated, forward-looking perspective that is continuously refreshed to show you where the business is headed.

For a world class solution, you need a world class systems integrator.

Unit4 Student Management embeds the platform technologies of Microsoft Azure to deliver the latest technologies on a highly secure, scalable and reliable cloud
